

# Resources Division

## MHS Learn

# What It Is...

**MHS Learn** is an e-learning portal that provides training materials, links and resources spanning all branches of service as well as the Department of Veterans Affairs (VA). It delivers worldwide, timely training to the military medical workforce.

# **Key Features and Benefits**

- Provides 24/7 access to training
- Offers several unique learning environments, over 1,200 courses and training events and can be accessed from either .mil or .com domains
- Provides continuing medical, nursing and provider education credits; staff development and courses on transition support for wounded warriors
- Provides free training to civilian network providers
- Promotes cost-effective use of federal health care dollars by minimizing duplication and underuse

# Highlight

**March 2012:** MHS Learn became CAC enabled. This allow users who currently have CAC cards to sign-in without using their username and mandatory 15-character password to take training. This additional benefit moves away from any reference to the social security number as part of the username and replaces it with the validated email address in the learner's profile.

# **What People Are Saying...**

**"Educating civilian providers about military culture and associated behavioral health issues continues to be one of TRICARE's priorities. Online courses are an additional tool TRICARE offers to make valuable training more accessible."**

director

-Army Maj. Gen. Elder Granger, former TMA deputy

**"...programs such as MHS Learn inspire learning, transform healthcare and are so vital to our country's military and our veterans."**

Officer of PSI

-Terry Lin, Chief Executive
